

Beach Cities Soccer Referee Association Policy

Policy: Guest Referees

Purpose:

Beach Cities Soccer Referee Association strives to grow its members and membership by providing opportunities to work in competitive soccer events, such as tournaments, leagues and other sporting events.

It is the goal of the Board to support events entirely from our membership rolls.

Some events may require more resources than the Association can provide from its member rolls.

Administration:

The Board of Directors will determine if and when guest referees may be used for an event.

Guest referees may be used to cover large events, events at a great distance from our region (greater than 50 miles commute) or to evaluate a referee as a potential member.

The Board of Directors may partner with other Referee Associations to provide referees for an event. This may also result in an opportunity to assist the partner with their events at some future time.

Priorities:

The membership of the Association will always have the top priority to work any event for our clients.

The Board will use guest referees after all available members have been assigned, but games still need to be covered.

Other:

It is important that the members provide their availability to assignors in a timely manner to ensure that they are given games for an event. Failure to provide availability may result in loss of games or unnecessary use of guest referees.

Guest referees will be subject to a fee of 10% of pay for administration.
